

BUY 1, GET 2

BUY ANY NEW STUDER CYLINDRICAL GRINDER AND GET
YOUR CHOICE OF TWO SOFTWARE PACKAGES, ON THE HOUSE.

Back in 1977, STUDER developed and brought to market the world's first CNC cylindrical grinding machine. Nearly a half-century later, we're celebrating those CNC origins with a software-forward promotion that puts you two steps ahead.

From now until September 30, 2026, buy any new STUDER machine and choose two free software packages to unlock game-changing productivity. If you've been on the fence about purchasing your first (or next) STUDER, now is the time to maximize savings and lock in higher performance.

ELIGIBLE SOFTWARE PACKAGES (CHOOSE 2)

TouchControl

- Flexible part measurements with the machine touch probe
- Ensure and correct for part dimensions, wheel wear or thermal changes

StuderWIN

- Create, test and simulate grinding and dressing programs offline
- Reduced machine downtime due to programming

StuderDress

- High-efficiency profiling and re-profiling of grinding wheels
- Jump between wheel shapes in a fraction of the time

Touch Dressing

- Super abrasive dressing software
- Real-time contact detection that extends tool life

Quick-Set

- Automatic, triangulated tool setup
- Drastically reduce machine setup times

StuderForm

- Perform complex non-round grinding with ease
- For the machining of forms like polygons, triangles, squares and cams

ContourBasic

- Safely and quickly navigate complex contours
- A perfect fit for those who have regular one-off parts

InOne Thread

- Program, dress and execute grinding of thread profiles
- Eliminates the need for a standalone thread grinder

Don't miss out! Talk to your UNITED GRINDING North America RSM or your local UNITED GRINDING dealer to package up your machine and free software.

STUDER software promotion applies to all new STUDER cylindrical grinding machines sold until September 30, 2026. North America only. Customers who purchase a new STUDER machine before September 30 will choose exactly two eligible add-on software packages and receive them at no additional cost. This promotion can not be combined with any other discounts or special offers.
